- A. RU ID – The RU ID is the name of the identification issued to university faculty, staff, students, guests, and other individuals who have an official affiliation with the university.
- B. Service Center – An approved location where the RU IDs are issued. All campuses and off-campus locations utilize a single carding system and set of policies to issue IDs that are identical in design and function. Full reciprocity allows individuals to use their RU ID to access similar services on any campus. A list of service centers can be found at: <http://iam-ipo.rutgers.edu/locations.php>.
- C. Faculty/Staff – A category designation for all paid employees.
- D. Student – A category designation for full-time, part-time, and non-matriculated students registered in official university schools and degree programs.
- E. Guest – A category designation for student level guests, visiting scholars (faculty level), contractors and trades workers, vendors, and/or members of recognized external university affiliated organizations.

6. The Policy

All RU IDs shall include the cardholder's choice of legal name or preferred name (as it appears on official transcripts or payroll records) or as indicated via the Office of the Registrar, without social or professional title or degree. In accordance with university practice, an individual can use their preferred name on their ID.

Physical or electronic alteration of the RU ID is not permitted. This includes encoding of additional information on unused magnetic stripe (mag-stripe) tracks to allow the RU ID to work in unauthorized or external verification systems.

I. ISSUANCE AND USAGE OF AN ID

All cardholders are required to have their ID on their person while on any Rutgers campus or work location and are required to produce the card upon request. All members of the Rutgers University community are strongly encouraged to display their RU ID. Guests are required to display their RU ID on their person.

All individuals must have an active record in the ID carding system, in order to validate their university status. Service Center offices will not issue RU IDs to individuals lacking current active system records.

All transactions must be conducted in person. Family members, co-workers, or supervisors cannot conduct business for others.

Guest IDs can be issued to university guests, vendors, and other affiliated individuals after they are sponsored through the University Guest Portal by an authorized representative from a university department or unit.

The sharing of IDs is not allowed. Individuals can only possess one RU ID. Those with multiple roles will receive an RU ID that indicates their primary relationship with the University based on the following hierarchy (employees, students, and guests). When a change in affiliation occurs, cardholders are required to exchange their RU ID for one that reflects their current primary affiliation status.

Upon separation of service, the employee ID will be deactivated.

Cardholders are expected to take reasonable care in the use and storage of their RU ID. Lost RU IDs must be reported to an RU ID Service Center office immediately so that privileges associated
