1. Policy Statement

Since the power of a strong visual identity can only be realized through consistent application over time, it is the University's policy that the official logotype, signatures, and marks as

described in the Rutgers Visual Identity System User Guide are the only sanctioned marks for use across the University system. No other marks or symbols may be used in conjunction with or to replace the official Rutgers visual identity system. Every member of the University community plays an important role in bringing this cohesive new identity to life and in maintaining its integrity by applying it consistently throughout all University communications, including in print, web, display, broadcast and electronic formats. The Vice President for University Communications and Marketing is authorized by the Board of Governors to manage and enforce the Rutgers visual identity system consistently throughout the University.

2. Reason for Policy

Research confirms that a clear and consistent identity helps build and maintain reputation. Regularly reinforced graphic symbols can convey and reinforce the strengths of an institution. A strong Rutgers identity has far-reaching benefits, enhancing the University's ability to recruit faculty, students, and staff; generate revenue; garner grants; engage alumni, and attract external support. The Rutgers name and visual identity are substantial institutional assets and therefore their usage is under the purview of the Board of Governors and needs to be managed by a central administrative office with the authority to manage and enforce the proper use of the University's name and a unified visual identity system.

3. Who Should Read This Policy

All members of the Rutgers University community.
