1. Policy Statement

This policy establishes the requirement for Information Technology (IT) Security Awareness, Training and Education for all members of the Rutgers, The State University of New Jersey, community who have access to the University’s information systems and to information classified as “Critical” or “Restricted” restricted data in accordance with the University’s regulations and procedures are subject to amendment.

All policies are subject to amendment. Please refer to the Rutgers University Policy Library website (policies.rutgers.edu) for the official, most recent version.
security and privacy policies, State and federal laws, and expectations before access to information or services is granted. Applicable laws include but are not limited to the Gramm-Leach-Bliley Act (GLBA), Health Insurance Portability and Accountability Act (HIPAA), Federal Information Security Management Act (FISMA), and Payment Card Industry Data Security Standards (PCI-DSS); PCI (Payment Card Industry), and Health Insurance Portability and Accountability Act of 1996, Public Law 104-191 (HIPAA) laws.

2. **Reason for Policy**

   To ensure that the University community is properly informed and trained on the need for information security and in proper procedures for handling information classified as "Critical" or "Restricted" and the actions to be taken to maintain security and respond to suspected security incidents, restricted data according to its value, legal requirements, sensitivity, and criticality to the University.

2.3 **Who Should Read This Policy**

   Parties with major responsibilities include Vice Presidents, Chancellors, Deans, Information Owners (data custodians), Information Managers and Information Users. This policy applies to all members of the University community, including faculty, staff, students, covered entities, contractors, non-employees, and agents of the University.

   **Availability** - The expectation that information is accessible by the University community when

   All regulations and procedures are subject to amendment. Please refer to the Rutgers University Policy Library website (policies.rutgers.edu) for the official, most recent version.

   Page 2 of 6
Confidentiality - The expectation that only authorized individuals, processes, and systems will have is shared with or provided to other organizations. The state of keeping information and/or materials private, with only authorized individuals, processes, and systems having access to view, use, or share.

Guidelines - Advice on the ways to comply with policy, written for non-technical users who have multiple options for secure information handling processes.

Integrity - The expectation that the University’s information will be protected from intentional, unauthorized, or accidental changes.

Privileged Account - A user that is authorized (and therefore, trusted) to perform security-relevant functions that ordinary users are not authorized to perform. Source: National Institute of Standards and Technology Computer Security Resource Center (NIST CSRC)

Procedures – Step-by-step instructions and implementation details for personnel to perform specific tasks in ways that ensure that the associated preventive, detective, and/or response mechanisms work as planned.

Technology standards - Established requirement of technical configuration parameters and associated values to ensure that management can secure University assets and comply with University policy and regulatory requirements relating to the secured access to University information.

4.6 The Policy

70.1.4 INFORMATION SECURITY AWARENESS, TRAINING AND EDUCATION

A. Introduction:

Access to the University's information technology resources is a privilege that requires each all member individuals with access to Critical or R-restricted data to act responsibly and guard against abuses. Therefore, both the community as a whole and each individual user have an obligation to abide by the following requirements and responsibilities:

B. Requirements:

a. Executive/Senior/Vice Presidents, Chancellors and Deans must:
   1. a. establish, maintain, and disseminate documentation such as Technology Standards, Procedures, and/or Guidelines, to ensure compliance as stated in this Policy for the organizations under their purview
   b. Ensure that all members of the Rutgers University community under their purview, including third party stakeholders (business associates, partners, contractors), that have access to Critical or R-restricted data or Privileged Access complete the assigned Security Awareness Training (SAT) upon arrival at the University and the annual refresher thereafter.

All regulations and procedures are subject to amendment. Please refer to the Rutgers University Policy Library website (policies.rutgers.edu) for the official, most recent version.
2. **Deans, Directors and Department Chairs** must ensure that business units, schools, and departments, including third party stakeholders (business associates, partners, contractors), under their purview that have access to Critical or Restricted data complete Security Awareness Training (SAT) upon arrival at the University and the annual refresher thereafter.

3. **Information Users** with access to University Information Technology Systems, information classified as “Critical” or “R-restricted,” or with Privileged Access data must:
   
   2. 
   a. Responsible to complete all assigned training related to Information Security Awareness, as well as all mandatory, the annual training courses as Information Security Awareness training and education provided by the Rutgers University;
   
   b. Responsible for adhering to all assigned and mandatory training related to the Information Security Awareness Training and Education as provided by the Rutgers University; and
   
   c. Responsible to follow all of the University’s applicable Rutgers’s Information Security Technology policies, procedures, technical standards, and guidelines.

4. **The IT Risk, Policy and Compliance Information Protection and Security (IPS)** must:
   
   3. 
   a. Responsible for implementing, maintaining, and providing on-going information technology security awareness, training and education using various techniques such as awareness sessions, training, newsletter articles, email communication campaigns, and an intranet website;
   
   b. Reviewing the annual security, awareness training content, working with all other relevant parties, to update training content as it pertains to Information Security Awareness topics;
   
   c. Responsible for providing an annual activities report to the Senior Vice President for of Information Technology and Chief Information Officer, upon request.

5. **University Ethics and Compliance (UEC)** must:

   a. establish and maintain the University’s Security Awareness Training (SAT) program working with all other relevant parties to ensure appropriate content to communicate the aim of information security and the potential impact on the University based on user behavior;

   b. ensure SAT is assigned to all members of the University community with access to the University's information technology resources or with access to Critical or Restricted data complete the annual refresher training course.

All regulations and procedures are subject to amendment.
Restricted data or with Privileged Access at least upon their arrival at the University or with a job function change and at least yearly thereafter:

c. review the annual SAT content, working with all other relevant parties, to update training content as it pertains to Compliance topics.

___

A6. Non-Compliance and Sanctions:

Failure to comply with this policy may result in denial or removal of access privileges to the University’s electronic systems, disciplinary action under applicable University policies and procedures, civil litigation, and/or civil or criminal prosecution under applicable state and federal statutes.
